Dear Rod,

Standard(s)	License Number(s)	Current Expiry Date(s)
9001:2015	QEC5083	13/07/2020

Under the provision of IAF ID 3 Management of Extraordinary Events or Circumstances Affecting ABs, CABs, and Certified Organizations, SAI Global is writing to you to inform you that the validity of your certification(s) listed above has been extended to **6 months** beyond the original expiry date(s) based on completion of your re-certification audit "remote" component.

The validity extension is based on the current extraordinary events related to COVID-19. During this validity extension period, there will be no change to the expiry date of your certificate or the lifecycle of the certification. A valid certificate with new expiry date based upon the original expiry date **can only be issued** dependent on the following:

- The re-certification audit "on-site" component is completed within this permissible extended period as re-certification activities includes both remote and on-site components.

Should re-certification activities not be completed within the permissible extended period your certificate will be deemed as expired and the certification process will need to be recommenced.

Yours sincerely,

**Heather Mahon**
